

**IN THE CLAIMS:**

The following listing of claims will replace all prior versions and listings of claims in the application.

**Listing of Claims:**

Claims 1 to 10 (canceled).

Claim 11 (previously presented): A packing sleeve for a cylinder in a printing press comprising an evacuable structure of voids.

Claim 12 (previously presented): The packing sleeve as recited in claim 11 wherein the evacuable structure of voids includes a plurality of individual voids or a plurality of voids of the evacuable structure are connected.

Claim 13 (previously presented): The packing sleeve as recited in claim 11 wherein the voids run substantially parallel to the figure axis of the packing sleeve.

Claim 14 (previously presented): The packing sleeve as recited in claim 11 wherein the packing sleeve includes an outer lateral surface, the outer lateral surface being the lateral surface of a right-circular cylinder.

Claim 15 (previously presented): The packing sleeve as recited in claim 14 wherein the outer lateral surface includes at least one recess fixing a plate-form cylinder packing.

Claim 16 (previously presented): The packing sleeve as recited claim 11 wherein the packing sleeve includes an inner lateral surface having at least one recess or one projection.

Claim 17 (previously presented): The packing sleeve as recited in claim 11 further comprising at least one annular lateral plate including a cavity connected to the evacuable structure.

Claims 18 and 19 (canceled).

Claim 20 (previously presented): A method for increasing the outer diameter of a cylinder in a printing press comprising the step of:

drawing the packing sleeve as recited in claim 11 over the cylinder.
